

# Mobile Payment Solutions

## Accept Payments on the Move

Take payments in real-time, from any location, with Merchant e-Solutions Mobile Payment Solutions. We offer an in-house developed solution that works with your web-enabled, Smart phone or an all-in-one mobile Point-of-Sale (POS) terminal. All transactions are securely handled and stored.

## Choose the Right Solution

Select the solution that is right for your payment processing needs:

- **Merchant e-Solutions Mobile Virtual Terminal:**

A web-based virtual terminal solution designed for use with smart phones. Ideal for merchants who are looking for a wireless solution, own a smart phone with access to the Internet and do not want to buy a dedicated wireless credit card terminal. The same solution can be used from your desktop or laptop where access to the Internet is available.

- **Charge Anywhere Spectra:** A dedicated all-in-one mobile POS terminal with an integrated printer. Ideal for merchants who are looking for a handheld all-in-one card reader and printer.

Mobile Payment Solutions are just one group of a variety of payment service solutions that Merchant e-Solutions can provide to you. Our services are supported by our innovative, full-service, Payment Card Industry (PCI) compliant processing platform, web-based reporting features and our experienced customer service staff. All credit card information collected at the POS is securely encrypted from input through our transaction processing system.

## Easy, Secure Access

Access from anywhere - all you need is a web connection.

## Easy Access to Reporting

Web-based reporting provides real-time information, from viewing your mobile payment solution transactions to seeing deposits made to your checking account.

## Consolidated Reporting

Convenient, consolidated reports for all your Merchant e-Solutions payment services

## 24 Hour Help Desk

24 by 7 technical support is provided by our experienced help desk, ensuring you have quality support when you need it.
